

Citrus

Growing citrus fruits in greenhouses offers a fantastic opportunity to enjoy the fresh and vibrant flavors of oranges, lemons, limes, and other citrus varieties year-round, even in regions with colder climates.

- **Growing Medium:** Citrus trees prefer well-draining and slightly acidic soil with a pH level ranging from 6.0 to 7.0. In greenhouse cultivation, using a high-quality potting mix or a well-balanced hydroponic medium can offer the necessary nutrients and aeration for healthy root development.
- **Soil:** They require well-drained, acidic soils with a pH range between 5.5 to 6.5. Citrus trees are not salt tolerant so when testing EC levels, ensure the readings are below 2,200ppm.
- **Space:** When planting, it's essential to provide enough space between each bush to allow for proper air circulation and sunlight exposure.
- **Irrigation:** Proper watering is essential to avoid both overwatering and underwatering. Greenhouse growers should aim for consistent and even moisture levels, allowing the soil or growing medium to partially dry between watering sessions.
- **Pollination:** Citrus trees are generally self-pollinating, but in greenhouses, providing gentle air circulation can aid in pollination and enhance fruit set.
- **Pruning and Maintenance:** Proper pruning helps shape citrus trees, encourages air circulation, and removes dead or diseased branches. Training citrus trees into a desired shape also ensures that light reaches all parts of the plant, improving overall fruit production.

Recommended Products for Citrus Cultivation:

1.Coco Planter Bags: Coco Planter Bags offer a versatile and efficient solution for Citrus cultivation, tailored to meet the diverse needs of growers.

- **Multiple Crop Cycles:** These bags can be used for several crop cycles without changing the growing media, ensuring consistency in plant growth and productivity.
- **Support for Plants:** Coco Planter Bags excel as pots for cultivating fruits, vegetables, and flowers, making them well-suited for citrus and other plants.
- **Home Gardens:** The open-top design of Coco Planter Bags is ideal for home gardens, allowing for easy cultivation of Citrus, Blueberry, Blackberry, Watermelon, Egg Plant, Tomato, flowers, and foliage.
- **Benefits:** These bags are crafted from high-quality cocopeat or husk chips, providing excellent water retention, aeration, and nutrient-holding capacities. They create a clean and safe environment for your plants, promoting healthy and thriving growth.

Our Product Specifications

Product Name	Cocopeat Planter Bags / Open Top Grow Bags	Product Photo
Brand Name	Greenpeatcoco	
Material	100% Natural Cocopeat or Mixed with Husk Chip	
Moisture	Less than 20%	
EC Level	As per Customer spec	
Plants	Blueberry, Citrus, Tomato, Cannabis	
Capacity	As per customer's requirement	
Packing	With 2-3 years UV treated LDPE 2 Layer Bag or Naked	
Weight	As Buyer's request	
Size	20x20x20cm, 25x25x25cm, 30x30x30cm or as per customer specifications	
Services	OEM / ODM / Private Label	
Customization	Possible	

Specifications can be changed with the buyer's preferences

2.Cocopeat and Husk Chip Briquettes: By offering cocopeat and husk chip briquettes alongside Coco Grow Bags, your company can provide growers with a comprehensive range of high-quality growing mediums that cater to different preferences and cultivation needs. Whether used in hydroponic systems, greenhouses, or traditional gardening, these coco briquettes will enhance plant growth, yield, and overall productivity, earning your company a reputation for delivering exceptional and sustainable solutions to growers worldwide.

- **Crop Versatility:** Cocopeat and husk chip briquettes can be used as standalone growing mediums or blended to create customized mixes tailored to specific crop requirements. They are suitable for a wide range of plants, including Citrus, cucumbers, tomatoes, cannabis, bell peppers, lettuce, and more.
- **Water Retention and Aeration:** These briquettes offer excellent water retention capabilities, ensuring consistent moisture levels for plant roots. Simultaneously, they provide adequate aeration, preventing waterlogging and promoting healthy root development.

- **Environmental Friendliness:** Both cocopeat and husk chips are eco-friendly and renewable resources. They are derived from coconut husks, which are a byproduct of coconut production, making them a sustainable choice for growers concerned about the environment.
- **Easy Handling and Use:** Cocopeat and husk chip briquettes are compact and easy to handle, making them convenient for transportation and storage. When hydrated, they expand, providing a ready-to-use growing medium for various planting applications.
- **Long-Lasting Performance:** The briquettes are designed for extended use, ensuring their longevity and effectiveness throughout the growth cycle of plants.

Our Product Specifications

Product Name	Cocopeat and Husk Chip Blocks	Product Photo
Type	Coconut Peat	
Form	Block	
Material	100% Cocopeat or 100% Husk Chips or customer specifications	
Moisture	Less than 20%	
EC Level	As per Customer spec	
Packing	With handle bag, inserting color label or Naked	
Weight	240g, 330g, 500g, 1kg, 2kg, 5 kg, As Buyer's request	
Use for	Vegetable, Flower cultivation, Farms, Greenhouses	
Season	Farming Seasons	
Services	OEM / ODM / Private Label	
Customization	Possible

3.Coco Grow Cubes and Pellets: Coco Grow Cubes and pellets serve as an exceptional seedling base for Citrus root development, specifically designed for plant nurseries.

- **Reduced Rejection Rate:** With independent control of water and fertilization during the seedling phase, Coco Grow Cubes minimize the risk associated with transplantation, leading to fewer plant rejections.
- **Rapid Root Growth:** The cubes promote rapid and dense root growth, ensuring healthy and vigorous plant development.
- **Organic and Eco-friendly:** Coco Grow Cubes are 100% organic and environmentally friendly, made from natural and sustainable cocopeat, offering an eco-conscious alternative.

- **Enhanced Nutrient Absorption:** The porous structure of the cubes enables enhanced nutrient absorption, ensuring efficient nutrient uptake by the citrus plants.
- **High Water Retention:** Coco Grow Cubes have a high buffer capacity, retaining water to maintain optimal moisture levels for healthy seedling growth.
