

## Carnation

### Carnation Cultivation:

Cultivating carnations is a rewarding and delightful experience that yields a kaleidoscope of colorful blooms. These beloved flowers are known for their charming fragrance and long-lasting beauty. For optimal results, we recommend using Coco Planter Bags as the ideal growing medium.

To cultivate carnations, fill Coco Planter Bags with a well-balanced potting mix. Ensure the bags receive ample sunlight and water consistently to maintain optimal moisture levels. With the support of Coco Planter Bags, your carnations will flourish, displaying a delightful array of colors and enchanting beauty, making your garden a paradise of floral delight.

### Key Aspects of Carnation Cultivation with Coco Planter Bags:

1. **Superior Aeration:** Coco Planter Bags offer excellent air porosity, creating a well-ventilated environment for sunflower roots. This promotes robust root development and helps prevent issues associated with waterlogging.
2. **Moisture Retention:** The coco substrate in Coco Planter Bags efficiently retains moisture, ensuring consistent hydration for sunflower plants. This feature reduces the frequency of watering while maintaining optimal moisture levels.
3. **Nutrient-Rich Medium:** Coco Planter Bags contain natural nutrients that support healthy sunflower growth. This reduces the need for additional fertilizers, providing an eco-friendly and sustainable approach to cultivation.
4. **Easy Handling:** Coco Planter Bags are convenient to use and move around, allowing flexibility in arranging sunflower plants in the garden or greenhouse.
5. **Durability:** The UV-treated PE packaging of Coco Planter Bags ensures their longevity, even when exposed to sunlight for extended periods, providing reliable support throughout the sunflower's growth cycle.
6. **Versatility:** Coco Planter Bags can be used for various sunflower varieties, making them a versatile choice for both large-scale cultivation and home gardening.
7. **Sustainable Cultivation:** The eco-conscious composition of Coco Planter Bags, made from renewable cocopeat and husk chips, aligns with sustainable gardening practices. After use, the bags can be recycled or reused, minimizing environmental impact.

### Our Product Specifications

Product Name	Cocopeat Planter Bags / Open Top Grow Bags	Product Photo
Brand Name	Greenpeatcoco	
Material	100% Natural Cocopeat or Mixed with Husk Chip	
Moisture	Less than 20%	
EC Level	As per Customer spec	
Plants	Carnation, Cannabis, Sunflowers, Egg Plant	
Capacity	As per customer's requirement	
Packing	With 2-3 years UV treated LDPE 2 Layer Bag or Naked	
Weight	As Buyer's request	
Size	20x20x20cm or as per customer specifications	
Services	OEM / ODM / Private Label	
Customization	Possible	

**Specifications can be changed with the buyer's preferences**
